A GUIDE TO OUR PRODUCT
FEATURES AND BENEFITS SYMBOLS

Higher, Mid and Lower Budget icons – Budget indicator guide to help you to quickly identify which ranges are most suitably aligned to your budget expectations.

Fine Edge – There are flat items within this range that have an elegant fine edge.

Rolled Edge – There are flat items within this range that have a reinforced ‘rolled edge’ to increase chip resistance.

Fully Glazed Foot – Dudson’s pin firing techniques ensure that flat items have a fully glazed, smooth ‘foot’, which greatly reduces abrasion and scratching in use.

Dishwasher Safe – Items in this range are industrial dishwasher safe.

Microwave Safe – Items in this range are safe for use in a microwave.

Lifetime Edge Chip Warranty – Flat items that have a ‘reinforced edge’ to increase durability, carry a lifetime warranty against edge chipping (items identified by ).

5 Year Edge Chip Warranty – Dudson offers a 5 year edge chip warranty on selected items within this range, denoted by .

Crystal Glass – Items produced in high quality, lead-free crystal glass allowing true appreciation of wine condition and colour.

Reduced Thickness – Advanced technologies assure excellent glass distribution throughout the product body, guaranteeing thinner rims.

Pulled Stem – Each stem is obtained from a single piece of glass. This process guarantees a more durable product and an elegant, slender shape.

18/10 Stainless Steel – Items produced in premium quality 18/10 stainless steel for long lasting shine.

Hollow Handle – Items within this range have a hollow handle for a lighter, well-balanced feel.

WELCOME TO
THE DUDSON
PORTFOLIO

To learn more about the Dudson Group, take a look at our Brand Book. From our design ethos to environmental credentials and state-of-art manufacturing facilities, you can learn much more about the Dudson philosophy here.

The Look Book has been designed to provide inspiration for many different styles of dining. Here we use mood boards to represent the products that we recommend for each style.

The Product Guide features sections on each of our seven product brands covering ceramics, glass, cutlery, wood and buffetware.

Whatever the occasion or dining style, you will find inspiration from our tabletop concepts within this portfolio.

OUR BRANDS

With a comprehensive portfolio of brands offering ceramics, glass, cutlery, wood and buffetware, you will find inspiration from our tabletop concepts within this portfolio.

All Dudson ceramics are manufactured in our own factories in the UK and France and we are delighted to offer our customers a complete tabletop range thanks to our relationships with three very special partner brands.

Fine China

ELEGANCE,
DESIGN AND
PERFORMANCE

Brilliant white, translucent and beautifully decorated, Fine China offers elegance and sophistication.

*Finest
Vitrified
Tableware*

DESIGNED TO
PERFORM

Combining design excellence with exceptional durability, this collection offers a wide variety of shapes and colours, all carrying the British Standard 4034 Kitemark™.

*Vitrified
Tableware*

DURABILITY,
FUNCTIONALITY
AND GREAT VALUE

Consisting of a core range of selected key items, the Vitrified Tableware collection offers great quality and durability at very competitive prices.

evolution

OUR GREENEST
PRODUCT YET

With a variety of stunning textures, colours and shapes, Evolution has the lowest carbon emissions of any ceramic hospitality tableware manufactured anywhere in the world.

DARTINGTON
CRYSTAL

THE DISCERNING
CHOICE IN GLASS

Discovering the true flavour and character of any wine starts with a great glass. British company Dartington offers a variety of elegant and contemporary styles designed to complement the Dudson product portfolio.

 Sola

CUTTING EDGE

Sola Switzerland produces premium cutlery inspired by great design. The business remains true to its founding values of in-house design competence, product quality and technical excellence.

Myco
by Dudson

QUALITY AND STYLE
AT GREAT VALUE

From hammered finish cutlery to stylish steak knives, the Myco collection offers a variety of high quality ranges that represent excellent value for money.

MARKET LEADERS

Why choose Dudson?

1 2

WIN-WIN

- Low cost of ownership over time
- Value for money
- Continuity of supply

ENGINEERED FOR PERFORMANCE

- All ceramics manufactured in Dudson's own factories
- First to introduce Lifetime Edge Chip Warranty
- Fit for purpose
- Exceeding industry standards

3

DESIGN-LED

- Identifying emerging trends
- Using our wealth of experience to innovate and inspire
- Global custom design service

4

ENVIRONMENTAL DNA

- First to market with reduced carbon emissions range 'Evolution'
- Certification to BS EN ISO 14001:2004 Environmental Standard
- Use of green technologies

5

DIVERSITY

- Product to suit all budgets
- Comprehensive tabletop range for today's market
- Mix 'n' match ranges to create a unique look

OUR COMPANY OUR VALUES

We are dedicated to providing a professional service experience that offers value and satisfaction to our global customer base, while retaining the warmth, friendliness and personality of a family-owned business. Our customers are at the centre of everything that we do, and this is visible right across our organisation.

GLOBAL SERVICE AND DISTRIBUTION

We operate distributions centres in the UK, France, USA, Australia and Spain, each tailored to meet regional requirements. Showroom and design centres are based at each of these locations, as well as in London, Paris and Toronto.

Our business is constantly growing. We currently deliver to over 140 countries and our network of agents and distributors is spread strategically around the globe allowing us to react quickly to customer demand.

THE GREEN FACT-TREE

At Dudson, we have always adopted a proactive approach towards the environment, operating a number of initiatives throughout the production process.

Our UK sites have certification to the BS EN ISO 14001:2004 Environmental Standard, with an Environmental Management System to ensure continuous improvement and ongoing legal compliance.

All our ceramics are made in Dudson's own factories in England and France, with local materials used wherever possible

General waste collections from our UK factory have been reduced by 65% since 2005

All waste glaze in our French factory is recycled and a glaze reclaim plant in the UK has processed 60 tons of glaze in its first year, 12 less skips to landfill!

Our French factory has a water treatment plant on-site, treating more than 270 cubic metres per day of waste water

Fast-fire kilns are used wherever possible, which are much more energy efficient than traditional methods of firing

All Dudson factories recycle any materials that may be lost during production, resulting in less waste to landfill

The durability of Dudson products is well-known. The environmental effects of this longevity are less resource use and lower transport costs.

TRADITIONAL SKILLS + MODERN TECHNOLOGY

Demonstrating our continued dedication to quality of product and service, all ceramics are produced at Dudson's own state-of-the-art manufacturing facilities in the UK and France, both of which have seen substantial expansion and improvement in recent years.

FACTORIES IN BRITAIN AND FRANCE: MANUFACTURING MATTERS

"We continually strive to improve productivity and efficiency with no compromise on quality."

MARK DUDSON, OPERATIONS DIRECTOR

Dudson's philosophy is to combine innovation and design. The company takes a product idea from concept to reality, using its inherent craftsmanship and knowledge coupled with modern production facilities.

The Group's leading production facilities in Stoke-on-Trent and Digoin embody a strong commitment to the UK and France, sourcing locally wherever possible and nurturing local skills and expertise.

A rich and unique heritage gives the company pride about the past and passion for the future, helping to underpin the brand and set Dudson apart from the crowd.

Our ongoing programme of investment into manufacturing technology and development helps us set the standard in design and product performance for today's hospitality market.

DUDSON BY DESIGN

Dudson understands that to stand out in today's marketplace, an 'off the peg' solution is not always the answer, which is why our team also offers an individual design service for shape and decoration.

For the design team, it's all about working in close partnership with our customers, right from the outset. "To get the right results, we'll do our utmost to gain an in-depth knowledge of our customer's business," says Danny Goodall, Design Director. "This helps us to understand exactly what the customer wants from a product range so that we can create fit for purpose, inspirational pieces that perfectly match the personality of their organisation."

"Tableware is an essential ingredient, integral to every dining experience," he continues. "Food is art and our aim is to provide customers with exceptional tableware to showcase their culinary expertise."

"Our aim is to provide customers with exceptional tableware to showcase their culinary expertise."

DUDSON SHAPE DESIGN

Using a combination of traditional design skills and the latest CAD and 3D prototyping technologies, this page illustrates the process for new shape design from original concept through to final product.

This section has been designed to inspire you.

The Look Book presents our product recommendations for nine different dining styles, referring you to the relevant pages in the Product Guide for more detailed information.

Whatever the dining occasion, you will find the perfect solution in the Look Book.

CARING FOR YOUR PRODUCTS	196

THE LOWEST CARBON EMISSIONS OF ANY CERAMIC HOSPITALITY TABLEWARE MANUFACTURED ANYWHERE IN THE WORLD

At Dudson, we recognise our corporate responsibility in managing the impact of our operations on the environment. Produced entirely in the UK, Evolution is a ceramic body developed with the prime objective of reducing the carbon footprint created during manufacture.

Featuring variance in colour and glaze, and specifically designed with the hand-made appearance of thrown pottery, every piece is truly unique.

"When choosing china for our new restaurant, 'Prairie Kitchen and Bar', I searched for a product that matched our theme, the look and presentation of our food and had the durability to handle the volume and pace of our business. The Evolution line was the perfect match! The rustic elegance of the tableware matches the food concept and restaurant décor perfectly. The warranty on chipping satisfied my needs on durability and Dudson's commitment to reducing the impact of production on the community falls in line with the restaurant's commitment as well."

JEFFREY JOHNSON

Director of Food and Beverage
Hyatt Regency, Minneapolis, USA

OUR GREENEST PRODUCT YET

At 79%* less than the equivalent porcelain product, 'Evolution' currently has the lowest carbon emissions of any ceramic hospitality tableware manufactured anywhere in the world.

ENERGY EFFICIENT GLAZE

The glaze used on all Dudson ceramics is one of the most durable and energy efficient glazes in the market, enabling firing at a lower temperature for reduced energy use.

STRENGTH AND DURABILITY

Evolution is just as strong as other Dudson ceramic products, renowned for their durability and chip resistance. The undeniable strength of these products results in lower replacement rates, meaning less use of resources and lower transport costs.

ONCE-FIRED TECHNOLOGY

The Evolution ceramic body only requires one firing process, compared to the usual two or more in the production of ceramic hospitality tableware. This change in the manufacturing process significantly reduces the impact of production on the environment.

LIFETIME EDGE CHIP WARRANTY

All flat items and plate edges that have a 'reinforced edge' to increase chip resistance, carry a lifetime warranty against edge chipping (items identified by .

BETTER FOR THE ENVIRONMENT

As with all Dudson ceramics, any unfired pieces that are broken or imperfect can be 100% recycled into manufacturing processes.

*According to independent testing by Endeka Ceramics Ltd. on kiln firing processes

ELEGANCE, DESIGN AND PERFORMANCE

Brilliant white, translucent and beautifully decorated, Fine China offers elegance and sophistication. This exclusive collection combines the delicate aesthetics of fine bone china with the strength of vitrified tableware.

QUALITY AND CONSISTENCY

Purity, quality and consistency are constantly monitored to ensure that Fine China products maintain their brilliant whiteness and translucency.

LIFETIME EDGE CHIP WARRANTY

All flat items and plate edges that have a 'reinforced edge' to increase chip resistance, carry a lifetime warranty against edge chipping (items identified by ①).

FULLY GLAZED FOOT

Dudson's pin firing techniques ensure that all flat items have a fully glazed, smooth 'foot', which greatly reduces abrasion and scratching in use.

MICROWAVE / DISHWASHER SAFE

Designed to withstand the tough environment of a professional kitchen, all Fine China products are industrial dishwasher and microwave safe, with the exception of precious metals.

LONGER LIFE IN USE

Using the best raw materials, cutting-edge manufacturing processes and one of the most durable glazes in the market, the undeniable strength of Fine China results in lower replacement rates.

DESIGNED TO PERFORM

Combining design excellence with exceptional durability, the Finest Vitrified Tableware collection offers a variety of stunning shapes and colours, which all carry the British Standard 4034 Kitemark™.

MICROWAVE/ DISHWASHER SAFE

Designed to withstand the tough environment of a professional kitchen, all Finest Vitrified Tableware products are industrial dishwasher and microwave safe.

LONGER LIFE IN USE

Using the best raw materials, cutting-edge manufacturing processes and one of the most durable glazes in the market, the undeniable strength of Finest Vitrified Tableware results in lower replacement rates.

DESIGN FUNCTIONALITY

All items have been designed to meet your kitchen's requirements with space saving shapes, stackability and optimal portion control.

FULLY GLAZED FOOT

Dudson's pin firing techniques ensure that all flat items have a fully glazed, smooth 'foot', which greatly reduces abrasion and scratching in use.

LIFETIME EDGE CHIP WARRANTY

All flat items and plate edges that have a 'reinforced edge' to increase chip resistance, carry a lifetime warranty against edge chipping (items identified by ).

Features and Benefits

SYSTEM

- Effective time and resource management
- Multifunctional – ideal for receptions/event catering, buffets, table/bar service
- Reduced food wastage and improved portion control

TRAYS

- Large Modus trays designed specifically to work with Gastronorm regeneration systems
- Trays can be heated up to 130°C/266°F and cooled down to -20°C/-4°F
- Dishwasher safe
- Conform to BS EN 438 for resistance to crazing, staining and impact in use

PLINTHS

- Three sizes of plinth: 4 x 1 well; 3 x 3 wells; 2 x 3 wells
- Made from sustainable acacia
- Lightweight for ease of handling
- Lacquered finish for increased durability
- Food safe for peace of mind

CERAMIC ITEMS

- From the Finest Vitrified Tableware range for outstanding performance and durability
- British Standard 4034 Kitemark™ for product quality
- Items created specifically to fit Modus trays and plinths
- Reduced food wastage/improved portion control
- Microwave and dishwasher safe

Vitrified Tableware

QUALITY, DURABILITY AND EXCEPTIONAL VALUE FOR MONEY

Consisting of a core range of items, the Vitrified Tableware collection simply offers exceptional value for money. Manufactured in Dudson's own factories in the UK and France, the vitrified body provides outstanding strength and chip resistance.

Because of our ability to hold large stocks throughout our global warehousing facilities, we can offer the Vitrified Tableware collection at a competitive price without any compromise on product quality.

MICROWAVE / DISHWASHER SAFE

Designed to withstand the tough environment of a professional kitchen, all Vitrified Tableware products are industrial dishwasher and microwave safe.

LONGER LIFE IN USE

All Vitrified Tableware items are protected by a high performance glaze and can withstand a sudden temperature change of more than 170°C/338°F.

5 YEAR EDGE CHIP WARRANTY

Dudson offers a five year edge chip warranty on selected Vitrified Tableware items, denoted by (5).

FULLY GLAZED FOOT

A fully glazed, smooth 'foot' on all flat items helps to prevent scratching and abrasion during everyday use.

DUDSON QUALITY ASSURANCE

All Vitrified Tableware items are manufactured in Dudson's own factories in the UK and France, are Dudson backstamped and packaged in Dudson cartons.

THE CLEAR CHOICE

Discovering the true flavour and character of any wine starts with a great glass. British company Dartington Crystal offers a variety of elegant and contemporary styles designed to complement the Dudson product portfolio.

The company’s enviable reputation for excellence in manufacturing, product quality and design make Dartington the discerning choice for crystal glass.

CARING FOR YOUR PRODUCTS

CERAMIC CARE

Dudson ceramic products are manufactured to provide the extra strength and durability required for maximum performance in the hospitality market. We want you to be confident in your purchase and gain the maximum life from your Dudson products, so we have compiled the following guidelines to assist you. However, should you have any questions, please contact your sales representative.

STORAGE/HANDLING

With careful handling, your products will still look good after many years of service.

- 1) Ensure you have adequate stock, as correct rotation and careful handling will extend service life and reduce replacement costs.
- 2) Wherever possible, use the appropriate racks for storage. Make sure that handles/spouts do not knock together when stored.
- 3) The use of trays or trolleys when clearing tables will reduce excessive and/or unnecessary handling and prevent items from coming into contact.
- 4) Try to ensure minimum contact with soft metals to reduce metal marking, which can be caused by a number of factors including poor quality cutlery; stacking Dudson products with metal ancillary items such as teapots; and abrasion with metal countertops.
- 5) To avoid scratching the glazed surface, take care when handling to ensure that surfaces do not slide over one another, especially items with an unglazed foot.

DISHWASHING

Sometimes, damage may be caused by the incorrect washing of your products. To avoid this unnecessary damage and to preserve the appearance of your purchase, we make the following recommendations for washing ceramics.

Dishwasher: Set the temperature for wash and rinse cycles at the recommended level and follow the manufacturer's guide for detergent dosage. Assess water hardness and make sure water softeners are used if required. Please service your dishwasher regularly, according to the manufacturer's instructions.

- 1) Wash before using for the first time and ensure items are washed promptly after each use.
- 2) Use plastic or rubber scrapers to remove leftover food from plates before washing, as metal utensils or abrasives may damage the glazed surface.
- 3) Plastic racks are recommended, with compartmented boxes for cups/mugs, as plastic covered metal baskets can cause metal marking when they become worn.
- 4) Never wash cutlery or other metal items with ceramic products – always use specially designed cutlery baskets.
- 5) Whenever possible, prevent pieces from coming into contact (especially handles and spouts) by using well designed racks to avoid abrasion of the glaze.
- 6) Use a recognised de-stainer to remove stubborn marks as strong detergents and/or excessive concentrations will attack glaze and damage surface decoration including gold and platinum. If you require further advice, please contact your Dudson representative.

THERMAL SHOCK

To reduce the possibility of thermal shock, sudden extreme changes of temperature should be avoided e.g. from the freezer to a hot oven.

ON-GLAZE AND GOLD/PLATINUM DECORATIONS

On-glaze decorations should be handled with extra care as they are more susceptible to attack from detergents and abrasion. Due to the metal content of gold/platinum decorations, these items should not be used in microwave ovens.

SEMI-MATT GLAZE FINISHES

Please note that semi-matt glaze finishes on product will tend to show wear and tear to a greater degree.

The better care you take of your product, the longer its service life will be.

GLASS CARE

To keep your glass in good condition, please follow the advice below:

- Glasses should not be stacked.
- Do not expose to rapid temperature changes. Avoid placing in a refrigerator or freezer, or on a hot surface.
- Wash before using for the first time. Always wash at low temperatures with gentle non-caustic detergents. Always follow the dishwasher and detergent manufacturers' instructions for use.
- Cutlery should not be placed in glasses.
- Avoid pouring cold drinks into warm/hot glasses.
- Do not hold by the stem when hand drying.

CUTLERY CARE

Modern cutlery is easy to care for but following certain tips will help prolong its life:

- Rinsing with hot water immediately after use helps to reduce the chemical reaction of salts or acids.
- Wash before using for the first time and as soon after each use as possible. Do not leave to soak overnight as mineral salts in the water will attack the metal surface.
- Store and wash stainless steel and silver cutlery separately.
- Wash knives separately and place spoon bowls and fork tines in an upward position when washing to allow the water to rinse the items more effectively.
- Remove cutlery and dry immediately after washing, paying particular attention to knife blades. Never leave in a closed, damp dishwasher.
- Always follow the dishwasher and detergent manufacturers' instructions for use.
