Bringing quality Canadian-made cookware to Canadians coast to coast!

When we started making Paderno Cookware in Prince Edward Island back in 1979 we never dreamed that Canadians would one day stand in line to get a chance to buy our stainless steel cookware. But when we introduced our Factory Sale events across Canada, that's exactly what happened at stores right across the country - and that encouraged us to grow even more.

Today, Paderno offers more than 1,500 different kitchenware and houseware items. The range is exceptionally wide, and the quality is exceptionally high. We're proud of our roots, and we're proud to bring these world-class products to our customers.

Inside this year's catalogue you'll find our exciting new **Canadiana Cookware** range on page 4 and the incredible **Paderno Granite** non-stick fry pans on page 15. Durable, high-performance bakeware starts on page 23, and check out Canada's hottest kitchen item - the **Paderno Spiral Slicer** - on page 63, along with other one-of-a-kind items in our **Kitchenwares Plus** section starting on page 71.

After years of research and engineering, our cookware has advanced to provide tri-ply technology. We start with two exceptionally thick outer layers of stainless steel, then fuse them with a layer of an inner core rapid-heat conductor. The result is an unbelievably even, efficient heat distributor in a stunning cooking vessel. Made in Prince Edward Island, Paderno's Fusion comes with an exceptional lifetime warranty.

Paderno Classic features the latest improvements to our flagship product, with 18/10 stainless steel construction and a new encapsulated bottom pad that's safe for all modern stovetops, including induction. Welded in place, the stainless steel handles never loosen, and also stay relatively cool during stove top use and won't melt in the oven or broiler, or crack in dishwasher. The lid fits snugly to the curved, no-drip lip, creating an excellent cooking seal. With the same durability and style that built our reputation as Canada's finest cookware company, Classic is backed by our exceptional 25 year warranty.

The cookware that flew aboard *Air Force One*, is found in Canada's Prime Minister's residence, and tough enough to withstand the cooking demands of Canada's Culinary Institute for over 30 years.

Cookware Sets			
The beauty of owning a set of Paderno cookware is two-fold. First, when all your pots and pans are the same, your cooking gets better, because each piece performs the same way. That means you know exactly what to expect from each piece in terms of setting cooking temperatures, times and methods. Of course, there's another aspect of the beauty of our sets ... they look absolutely stunning in any kitchen!

PADERNO GRANITE

Paderno is pleased to introduce our latest frying pan technology advancement with our toughest, most durable, non-stick coating that we have ever tested. Our Paderno Granite pans start with a superb quality, Canadian-made, 18/10 stainless steel vessel. Featuring durable riveted handles and an encapsulated bottom pad that's safe for all stovetops including induction. Paderno Granite also features a unique "splatter" pattern which not only adds an additional semi-layer of non-stick coating, but also makes each pan unique.

Fry pans, ceramic coating, PFOA & PTFE free

Think Green

Our selection of nature conscious frying pans are easier on the environment than traditional non-stick. EcoPans, EcoPro, ProGreen, Earth Palette, Eco Artisan, and Earth Choice feature a durable ceramic interior that performs like a non-stick surface yet is completely PFOA and PTFE free. Belle Fleur pans offer a completely PFOA and PTFE free non-stick ceramic coating (interior and exterior) allowing for high-heat cooking up to 450°F (230°C). Look for the Paderno Induction symbol which indicates that the product is safe for all stovetops, including induction.

It's one of today's hottest kitchen tool materials. Silicone is much in demand not only because it is resistant to temperatures ranging up to 260° C / 500° F, but also because it's not affected by contact with oil, fat, salt or acids. A multi-purpose material, ideal for multi-tasking in a busy kitchen.
