

simple is beautiful

Simplicity is the ultimate sophistication.
Leonardo da Vinci

We are Nude

We live in a confusing world. A world with so many choices, so many products, so much 'noise.'

Nude believes things can be different, that the remedy is simple.

simple is beautiful.

Simple is pure, clear and transparent.

Simple is useable, clean and uncluttered.

Simple is timeless, convenient and reliable.

Simple gives us a feeling of confidence, trust and satisfaction.

Simple is smart. Simple is modern.

Simple stands to reason.

Simple works.

Simple is all of this and that is why things are so rarely simple. Designing and making something simple is not as simple as it seems.

Simplicity starts with caring enough to consider actual needs and then refining them to their bare essence; nothing more, nothing less, so that the final object is easy to understand, use and live with.

All of this means getting closer to the user, where less is more and form meets function, in the right place at the right time.

This idea of simplicity is the guiding principle behind nude, reflected in our design aesthetic, our mind-set and our culture.

The result is our promise reflected in glass.

Nude... simple is beautiful.

*Any intelligent fool can make things bigger, more complex,
and more violent. It takes a touch of genius – and a lot of
courage – to move in the opposite direction.*

E.F. Schumacher

The Signature Collections are an ongoing dialogue between creative genius, exquisite materials and glass.

Nude offer the platform, process, craftsmen and furnace.

The design is then manifested by the master or the collaborating partner who brings their value to bear.

The Nude Signature Collections push the boundaries of what is possible. They question how things could be.

They create the new.

Always simple.

All ways Nude.

Signature

Ron Arad

It stands to reason that Nude should choose to collaborate with Ron Arad for a Signature Collection.

Ron Arad, iconic architect and industrial designer, has always ignored formal disciplines and boundaries. He is a creator in the purest sense. His expansive portfolio of work is testament to his creative genius and free spirit. He is a constant innovator; questioning, challenging, re-thinking and reinterpreting the objects that surround us.

Ron puts it best himself, "For me design is to do something that did not exist before. Ideas should serve us; we shouldn't serve the ideas. Like this glass collection we have created. People always ask: Form or function? They are not at war with each other; they work together."

The Ron Arad Signature Collection for Nude includes iconic pieces such as the "DecanteRing", "Red or White?" and "Wine Party", all masterfully hand crafted in lead free crystal glass.

*For me design is to do something that did not exist before.
Ideas should serve us; we shouldn't serve the ideas. Like
this glass collection we have created. People always ask:
Form or function? They are not at war with each other;
they work together.*

The Timeless Collection embraces the everyday. Food and wine, decoration and design, all objects elegantly reconsidered by Nude through the lens of simplicity and expressed in lead-free crystal glass. The design process of the Collection starts with caring enough to consider people's real needs, distilling these to their bare essence and then clarifying everything so that the result is easy to understand, use and live with.

Nothing more, nothing less.

All of this means the Timeless Collection allows users to host like a pro, decorate their spaces with minimal fuss and absolute taste and light those spaces beautifully. Of course it does... its Nude.
