COMFORT

Believing that a good and uninterrupted sleep is one of the essential conditions for a good life, Sabah Beds commits itself to the maximum comfort principle in all products with its cutting-edge technology manufacturing systems, natural raw materials and innovative solutions.

WARRANTY

Sabah Beds operates with the principle of “zero error” for its production activities, providing its customers with a long-term warranty and after-sales services. Combining its knowledge and experience with the modern technological opportunities and creating great designs without compromising on quality, it considers the principle of 100% warranty and customer satisfaction as the foundation of its brand values.

SOLUTION-FOCUSED

Creating the best designs for the sleep health based on its experiences and expertise of years, Sabah Beds offers customized solutions considering the respective locations and requirements of usage in the beds it manufactures for both end users and commercial enterprises. All the requests of end users or commercial enterprises for designs are considered by the brand and the beds are designed and manufactured according to their requirements.

EXPERIENCE AND TRUST

Sabah Beds manufactures and offers such products that keep their characteristics for years and grow by consistently increasing its customer portfolio since the first day thanks to its factory equipped with the cutting-edge technology and its product range that is continuously improved. Combining its long-established experience in the sector with the principle of innovation, Sabah Beds creates a true “brand reliability”.

ENVIRONMENTALLY FRIENDLY PRODUCTION POLICY

.....

Complying with all the legal regulations concerning environment and human health and participating in social responsibility campaigns, Sabah Beds manufactures environmentally friendly products to leave a better world to live for our children. Accordingly, the brand chooses environmentally friendly, ecologic options within a wide range of its stages from the production at the factory to the whole collections. It treats and reuses such used water described as domestic waste through its treatment facilities and ensures that natural resources are protected and reused by means of transferring 100% of the environmental pollutants and waste to the respective recycling companies. Further, Sabah Beds ensures that 40% of the product packaging materials are collected from the market within the scope of a social responsibility campaign organized together with the Consumer and Environmental Education Foundation (TUKÇEV) so that it contributes to the recycling thereof and a reduction in energy usage. Operating with the principle of continuous improvement in line with the applicable laws and regulations, Sabah Beds commits itself to the protection of environment in the best manner for the benefit of all the people in the future.
